TWO-USE TORQUE MULTIPLIERS (SQUARE TUBE)

IST-DT2000

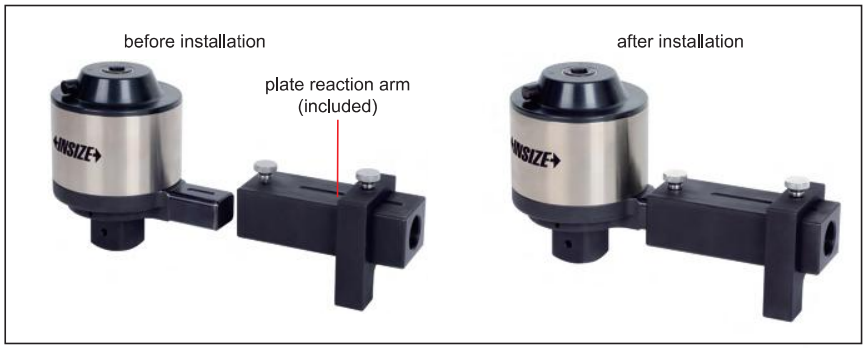

plate type

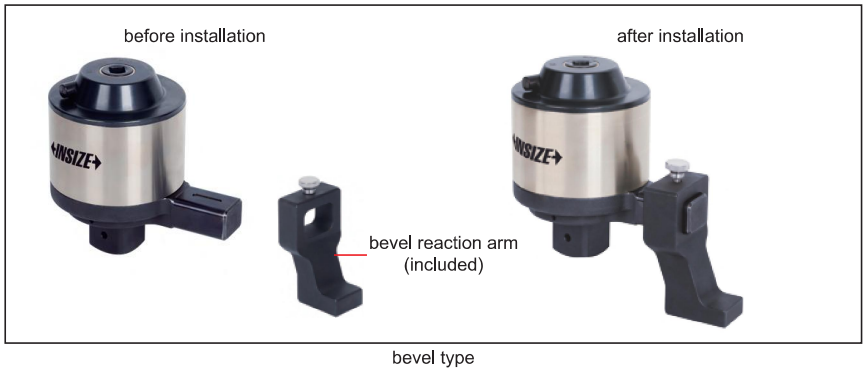

bevel type

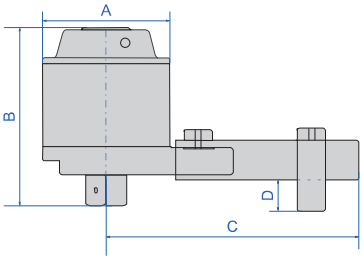

plate type

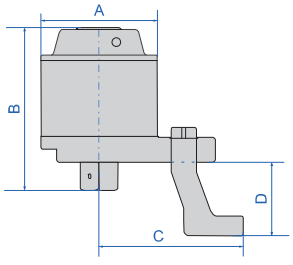
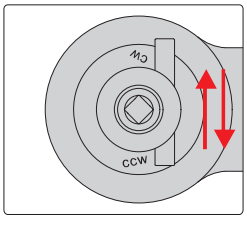


bevel type

- High efficiency gear set with small input torque and large output torque
- The reaction arm can adjust the position of the applied force according to the operation conditions
- Plate reaction arm and bevel reaction arm are included

application



after tightening, toggle the anti-bounce reversing dowel, turn the wrench in the anticlockwise direction, then remove the wrench from torque multiplier
